

Pay-off Take-up and caterpillar Machine

Rail-type, Traversing Take-up (Pay-off) Winder

This series is perfectly suitable for XLPE power cable, large or medium size plastic extruders and wire twisting and cable production lines. It performs the traveling by stand's reciprocation, by which pattern, the quality of the production can be ensured while the area occupied is small.

Drum diameter Of Take-up	Φ2,000/Φ800	Φ2,500/Φ1,000	Φ3,200/Φ1,600
Drum diameter Of Pay off	Φ2,000/Φ800	Φ2,500/Φ1,000	Φ3,200/Φ1,600
Applicable drum weight(t)	5	10	20
Applicable drum rotation(r/min)	1-110	0.1-36	0.06-24
Applicable cable diameter (mm)	10-50	15-120	25-150
Applicable cable torque (Kg-m)	10-100	20-250	50-350
Program and control pattern	PLC+DC controller		
Pay-off tension control	Flexible frictional disk regulating		

Pay-Off (pneumatic damp)

Automatic Take-up

Pay-off Take-up and caterpillar Machine

Belt-type Caterpillar

Max. Traction	30kN
Cylinder amount	9sets
Length of belt touch	3M
D.C Motor	Ea-11kW
Controller	ABB Germany

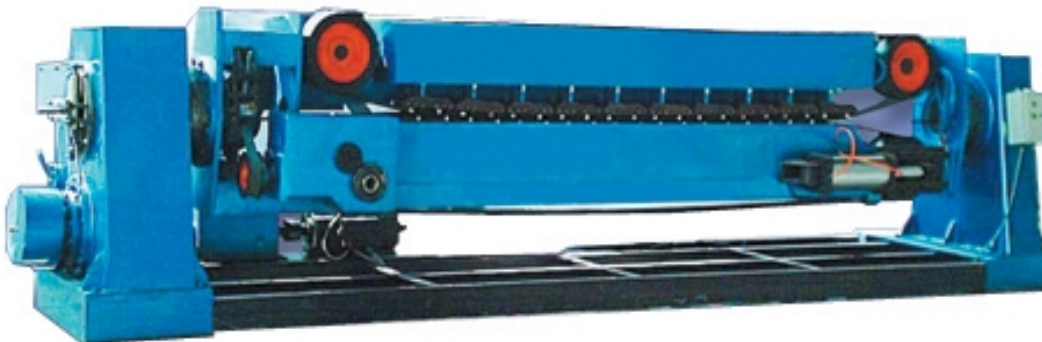

Hong Kong

Rotation-type Caterpillar

Max. Traction	30kN
Line Speed	0~30m/min
Length of belt touch	3~4M
D.C Motor	Z4-11kW
Controller	ABB Germany

Shanghai

Our Experience is your ^{BEST} solutions.
